TVA *energy right*®
Water Heater Program

Volunteer Energy Cooperative and TVA now offer a $30 credit toward the power bill for customers who replace their existing water heater with a more energy efficient electric model.

Credit will be offered if the new water heater:

1. Is an electric model;
2. Replaces an existing water heater;
3. Has a tank with a capacity of at least 40 gallons;
4. Is purchased and installed within 60 days of the submission of the water heater credit application;
5. Meets Department of Energy minimum requirements, AND
6. Is installed and operable at the location designated on the account (rental properties must have prior approval from VEC's Marketing & Economic Development Department). The unit must be installed at a location served by the VEC electric system and is subject to a validation inspection by VEC and/or TVA.

To qualify, **submit the water heater credit application to VEC within 60 days of the water heater purchase and include a copy of the sales receipt**. If necessary include proof that the water heater is an electric model. The credit on your electric account will be applied once the validation is complete. Please allow 4-6 weeks for processing.

Water Heater Program Application
