

Green Power Switch

Green Power Switch from TVA and your local power company puts the power of the wind, the sun and the earth to work to power our lives.

But it's only possible with the participation of people like you. People who recognize that alternative energy sources are essential to our environment's future. People who are willing to do their part to change the world from inside their very own homes.

When you sign up for Green Power Switch, you buy green power in 150-kilowatt hour blocks (equivalent to about 12% of a typical month's electricity use.) Each block you purchase is a \$4 addition to your monthly power bill. Buy one or buy as many as you like. The green power that you pay for is added to the overall mix of power that TVA provides to the Valley.

So the more resources devoted to Green Power Switch, the more natural resources saved within the environment.

This document is printed on 30% post-consumer recycled paper.

CO-GP-03-01

Fill out below, indicating your home utility account number and the amount of green power you would like to purchase each month, and return this slip with your payment.

- 150 kilowatt-hours (\$4)
- 300 kilowatt-hours (\$8)
- 450 kilowatt-hours (\$12)
- 600 kilowatt-hours (\$16)
- 750 kilowatt-hours (\$20)
- Other _____
